

ADVANCED LABOR  
MANAGEMENT SOFTWARE

# CrewSight™ Labor Management Solutions

CrewSight is the leader in workforce management with jobsite access control

## CREWSIGHT

CrewSight software combines a jobsite access control system with a worker database for increased site security. Plus, you can track time and attendance, safety documentation and compliance, and store your workforce registry. CrewSight creates automated reports and streamlines workforce communication with broadcast texts.

Secure your jobsite and manage entry permissions

Quickly access emergency information

Badge or tag workers for tracking

Connect to your workforce from any location or device

Access compliance and reporting information

Send broadcast texts and e-mails

### ► Access Control/Authorized Entry

CrewSight helps you enforce access rules to your jobsites and alerts you of unauthorized entries.

Add your workers, or have them self-enroll, and set their access permissions.

Ensure only those with the necessary documentation, such as NDAs, compliance agreements, health and safety documents, etc. can access the site.

Link with a mobile turnstile/door control kit for authorized entry and exit.

### ► Labor Tracking

CrewSight records each worker's time on site for accountability and reporting.

Know who is on each site, including their company and trade affiliation.

Track crew and subcontractor hours by jobsite.

Validate subcontractor billings with ground-truth data. Sign up for regular labor report summaries via email or text.

### ► Site Security

Limit access to your jobsite, improving security for your workers, equipment, and material.

Limit site access to workers with proper training, NDAs, drug tests, qualifications, and more.

Receive alerts and reports if unauthorized access occurs.

Allow your guards to focus on perimeter and vehicle security.

Reduce equipment theft by securing your site.

## ▶ Health and Safety

CrewSight enables you to document workers' emergency contact info and send safety alerts.

Confirm a jobsite is empty through supervisor alerts at the end of the day.

Broadcast text alerts regarding critical safety messages to your workforce in seconds.

Find an unconscious workers' emergency contact information from your phone in seconds.

3 Workers on site have certifications expiring next week

 Due to unsafe weather conditions, the project will be closed to all shifts until further notice.

## ▶ Compliance

CrewSight organizes your workforce data to facilitate compliance with government or owner mandates.

Link license expirations to access control and limit your liability.

Use labor reports to assist in payroll certification.

Facilitate reporting for local labor and Davis-Bacon requirements.

Configure your workforce database to record experience, documentation, and certifications.

## FEATURES

### Features List

- ▶ Access control / Authorized entry
- ▶ Track and manage time and attendance
- ▶ Faster, more detailed labor reporting

## RUGGED CONSTRUCTION TURNSTILES

CrewLane is a new innovation to simplify construction site security. Coupled with CrewSight software, you can automate access and compliance for all workers, giving you peace of mind that everyone who's on-site, should be.

Couple CrewLane turnstiles with the best construction access

### ▶ CrewSight Intelligent Access Control

Need more security? Control access to your jobsite with CrewSight Access Control. This system links to turnstiles which grant or restrict access to your site based on the permissions you set workers. Easily enroll, on-board, badge and grant access to any worker or visitor and ensure no one without a badge can access your site.

We can provide the software, badging, turnstiles and anything else you may require to secure your jobsite.

Make construction compliance simple with CrewSight Access Control.
