SERVICES

Field Solutions

In the new BIM-centric project workflow, translating design intent to the field with speed and ease is a key component to improved productivity. The Trimble Buildings' portfolio of Design-Build-Operate (DBO) technologies enables seamless interoperability for designers, builders, and owners/occupiers while also providing benefits to teams involved in site preparation and management.

- [BIM/VDC](#)

Rental Services

We rent a broad range of hardware solutions to meet all your needs – daily, weekly and monthly rates available. Whether you need a complete package or just components, we can always get you what you need, when you need it. We have the following solutions available for your construction needs:

- [Data Collectors](#)
- [Survey Grade GPS](#)
- [VRS GPS](#)
- [Mapping Grade GPS](#)
- [3D Scanners](#)
- [Standard Total Stations](#)
- [Robotic Total Stations](#)
- [Rotating Lasers](#)
- [Tripods, Prisms, etc.](#)

Repair Services

As a certified Trimble warranty and repair center, we can provide you with local customer service, technical support, and help you overcome equipment challenges. Our team of highly trained, authorized Trimble service technicians provide:

- [Repair of all Trimble Products](#)
- [Preventative Maintenance](#)
- [Full Instrument Calibration](#)
- [Firmware/Software Updates](#)
- [Cleaning](#)
- [Regular Maintenance](#)
- [Extended Warranties](#)

Instruments We Service:

- [Robotic Total Stations](#)
- [Data Collectors](#)
- [Conventional Total Stations](#)
- [GPS Antennas](#)

Mixed Reality Solutions

Trimble® mixed reality solutions blend virtual reality with the world by overlaying holographic data into real-world environments, providing technology solutions for each phase of the building lifecycle. With the industry's only constructible process Trimble solutions make intangibles more actionable, improving productivity and providing data so every person, phase, and process works together seamlessly.

- [Trimble Connect](#)
- [Trimble SiteVision](#)
- [SketchUp Viewer](#)

Facility Management Solutions

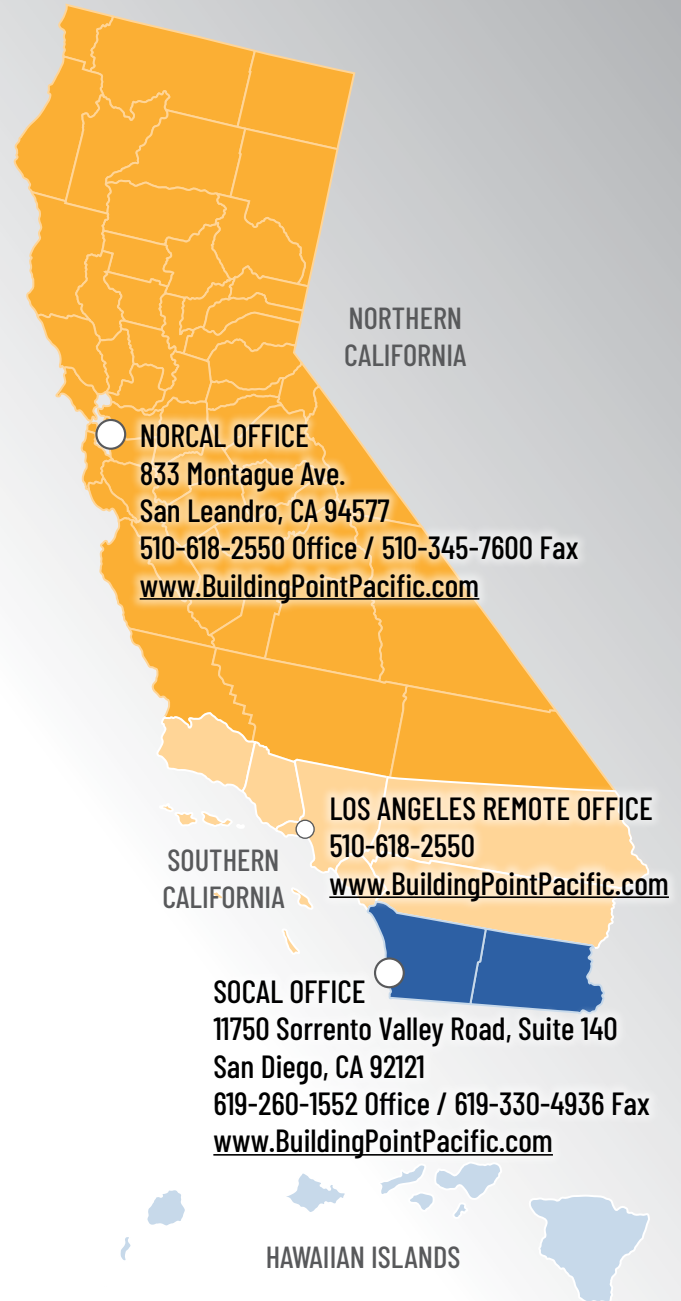

Transform your Building with 3D Facilities Management. Access information and send work orders through an intuitive 3D environment. BuildingPoint's software and services extends the value of BIM [Building Information Modeling] to Facilities Operations by giving owners an integrated database and instant access to location and asset information through an easy-to-navigate web-based 2D/3D-BIM interface.

- [Scan & Model Your Building](#)
- [Digital Twinning](#)
- [Access Building Information](#)
- [Isolate Systems](#)
- [Create & Manage Work Orders](#)
- [Integrate Your BIM](#)

Jobsite Security Solutions

Increase control, visibility, and security at your jobsite with Trimble's site management solutions that offer best-in-class site access management, site cameras, workforce management, and access control.

- [Trimble CrewSight](#)
- [Trimble Workforce Registry](#)
- [Jobsite Cameras](#)
